

2022 Social Purpose Report

Society of Air Light Time and Space SPC (ALTSpace)

The Society of Air Light Time and Space SPC (known as ALTSpace) is a community workshop with the goal of providing a low cost creative space to provide access to tools, space, ideas, and people.

Our current short term objective is to rebuild ALTSpace at our new 4th Ave location. This includes but is not limited to building critical infrastructure, rebuilding membership numbers, fixing tools, and generally raising awareness of our space. Our long term objective is to build, maintain, and evolve a community driven low cost creative space to provide access to tools, space, ideas, and people.

In fiscal year 2022 the ALTSpace board spent the majority of our time relocating from our Cherry St location in the Seattle Central District to our new location on 4th Ave in Georgetown. This was an enormous effort to find a new location, to move, and to build the minimum infrastructure to maintain membership numbers.
